SWEDISH E-INVOICING
INFRASTRUCTURE AND ADDRESSES

Peter Törnroth, Managing Director, APIX Messaging AB

SWEDISH E-INVOICING INFRASTRUCTURE AND ADDRESSES

- Some history

- Swedish infrastructure

- Challenges today

- NEA eRegister

SOME HISTORY

Comparatively low amount of e-invoices

Public sector in the driving seat – Svefaktura since ~2005

Obligatory to send e-invoice to the public sector since April 2019

PDF via email still very popular

APIX

SWEDISH INFRASTRUCTURE

Looks like Finland

4-corner model

Operators and banks + PEPPOL - NEA & "Operatörssamverkan"

No public address database – No PDF attachments

CHALLENGES TODAY

Sticks, not carrots

Weak standards historically

3-corner model / EDI legacy

Branding

NEA E-REGISTER - CONCEPT

Based on the existing Finnish model

Common development

Complementing, not replacing PEPPOL

NEA E-REGISTER - DEVELOPMENT

14 operators are currently joining

NEA eRegister AB owns the Swedish solution

1st phase: limited

2nd phase: public

THANK YOU!
