

SE4GD - Software Engineers for Green Deal 2020-2026

**Industry collaboration – sustainability related
student projects**

Erasmus Mundus

- Erasmus Mundus Joint Masters are high-level integrated study programmes at master level. The programmes are designed and delivered by an international partnership of higher education institutions from different countries worldwide.
- The EU provides funding for these programmes and for competitive scholarships, which the programmes offer to the best student applicants worldwide.

With the support of the
Erasmus+ Programme
of the European Union

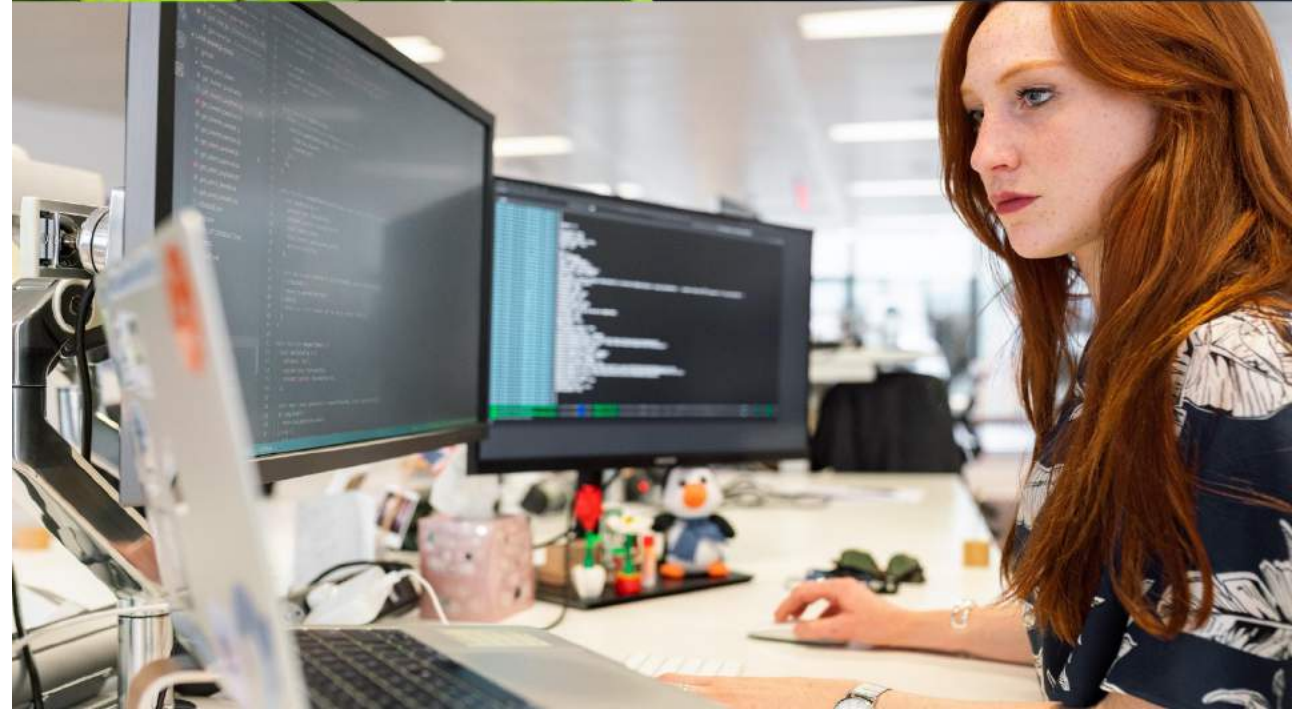

SE4GD

educates experts to innovate, design and implement software-based solutions with sustainability impacts in mind for local and global sustainability challenges

Contents

- Software engineers with sustainable mindset through
 - Software engineering (Italy)
 - Sustainable software (Finland)
 - Software for sustainability (Netherlands)
